

The Revolutionary Wheel spread utilizes the symbolism of TARO and YHVH in the layout and interpretation of the cards. It is performed as follows. Cards 1-4 follow the symbolism of YHVH. They are considered the noumenal world, or the world of thought, the world that has not yet been manifested. Cards 5-8 follow the symbolism of TARO in its permutation of ROTA. They are considered the phenomenal world, or the manifested world of the senses.

You may find as you work with this spread that the inner world (noumenal) and outer world (phenomenal) will actually change places within the reading, turning like the wheel they represent. The YHVH spirals inward to self-reflection and the TARO spirals outward as you share with others. Like the repetition and expansion of a fractal, the Yod/Hermit of YHVH expands to incorporate the whole of the YHVH, and now the YHVH/Hermit of the spread becomes realized as the TARO/Hierophant. The world of thought is born into the world of the senses, and in turn the achievement of the world of the senses becomes a new idea to be pursued, understood, and in turn, told.

Noumenal World:
