

The Earned Success Tarot Spread

The Earned Success Tarot Spread shakes you free from an unresolvable quandary. First we purposefully slog through the quagmire of a no-win situation. Then we reframe the difficulties as steps toward our goal. By embracing our challenges, we earn our success, like the crossing of the boat in the Six of Swords from difficulty to ease.

In this spread, we start at the bottom, the mire, the distorted reflection of our situation. Then we turn things around by stepping up into the solidity and forward movement of our journey. Finally, we ascend to the guiding light of clarity in the full moon. Accordingly, the layout of the spread starts below and rises to above.
