1. Prepare as you normally would and using an intuitive (random) draw, lay out four cards in the indicated positions. Interpret.
2. Rotate the cards, moving Card 1 into position 2, 2 into 3, and 3 into 1. Card 4 remains in its original place throughout the reading.
3. Rotate again, so that each of cards 1-3 has been in each of the positions 1-3.
4. If you like, continue on with the Empyrean Key method.

Joy's special tarot terminology

- a. **Analytical or Intentional draw**—when you look through the cards **face up** and pick a card by looking at the picture and making a conscious or analytical choice to use the card
- b. **Intuitive or Random draw**—when you shuffle the cards **face down** (or fan them out face down or use another method to choose cards without looking at the pictures) and select a card randomly, intuitively, or through energetic means
- c. **Synthesis**—Compare two or more cards and note any symbols common to each card being compared. Also consider what symbol on each card most specifically summarizes the meaning you see in the card. Note such a symbol for each card being compared. Now look through the deck for a single card that contains the symbols you have made note of. This card is the “synthesis” of the other cards. (This is a special technique I developed in August 2008.)
