

Empyrean Key

Igniting the Transformative Energy of the Uranus-Pluto Square

Uranus, the planet of radical new thinking, and Pluto, the planet of transformation and rebirth, formed the first of seven exact squares last month. The last of the seven squares will be in March 2015. The square aspect is a highly vibrating, tense, but ultimately foundational interaction between two planets. With all this explosive, revolutionary and transformative energy involved, we can expect our world to undergo a rebirth into a wholly new and unanticipated realm. The last significant aspect between Uranus and Pluto was their conjunction in the mid 1960s, the time of the sexual revolution and Flower Power movement.

This intense and slow developing transformation will be cultural in nature, affecting us on a large scale perspective. But we can capture the zeitgeist of this energy and align our own personal development with its societal change.

I have developed this Empyrean Key spread series so you can connect with these planetary energies and find how you can best express them in your life. There is an option to examine this using tarot only, and an option to use tarot and your natal chart.

Significantly, today Mars is triggering this planetary combination, so I have also included a spread that guides you through discovering how you can capitalize on this energy to jumpstart your process. The Ignition Spread is best completed while Mars is in aspect to Uranus and Pluto, through the end of the month.

How will you ignite your transformation?

Joy's Special Tarot Terminology

Analytical or Intentional Draw

An analytical or intentional draw is when you look through the cards face up and pick a card by looking at the picture and making a conscious or analytical choice to use the card.

Random or Intuitive Draw

A random or intuitive draw is when you shuffle the cards face down (or fan them out face down) and select a card randomly, intuitively, or through energetic means.

Synthesis

Compare two or more cards and note any details or visual cues common to each card being compared. Also consider what detail on each card most specifically summarizes the meaning you see in the card. Note such a detail for each card being compared. Now look through the deck for a single card that contains the visual cues you have made note of. This card is the “synthesis” of the other cards. I developed this special technique in August 2008 for the Denver Tarot Geeks.

Highest Expression

Often when we're doing tarot readings, we try to steer a middle course, and not read the cards the way we want them to mean but not read all gloom and doom either. The exercises in the Empyrean Key process provide opportunities to ask the cards to show us our highest self—this is not the same as seeing in the cards what we want to see, but rather allowing the cards—each and every card—to express to us something that is perfectly true, inspiring and transformative about ourselves. I call this the highest expression of the cards.

The Empyrean Key

The Basic Key

The Empyrean Key process uses tarot to explore our highest potential and then crystallize the insight we receive into a simple symbol or glyph that we can use ritually or playfully to bring our consciousness and energetic being into alignment with our higher self—and the Divine—to create powerful transformation in our lives.

The Empyrean Key is a simple process that can be used with any tarot spread to provide a way to incorporate the insight you receive into your life so that you can achieve the full transformational benefits of your tarot readings.

The Ultimate Key

In its ultimate form, the Empyrean Key method integrates the imagistic communication of the tarot with the astrological blueprint of your life purpose to create personalized spiritual practices aimed at evolutionary transformation. This method is designed to create opportunities to break through blocks while aligning yourself with your higher purpose so that you can achieve your unique perfection.

Translating the details of the astrological natal chart into mythological language arouses what is called archetypal expansion--the inspirational feeling of bursting through to a new level of universal consciousness. This expanded perception feels like arriving at the top of a mountain, where you can clearly see your destination. Then using the concrete methods of the Empyrean Key process, you can climb down from that mountain back to normal consciousness with a roadmap to where you're going.

Ultimately, the Empyrean Key process is designed to allow you to discover, connect to and manifest your soul purpose.

The Story Behind It

I developed the name Empyrean Key based on the idea of the Empyrean sphere, which was considered the eleventh and highest heaven in medieval cosmology. This was the highest level of the universe, unmoving, perfect, the realm of pure light and the seat of the Divine. The word "key" refers both to a tool for unlocking something previously unavailable, as well as to the Major Arcana of the tarot. Your Empyrean Key is your unique tool for opening the highest levels of your soul purpose.

The Empyrean Key method developed out of my desire to manifest my own soul purpose. After years of study, the tarot had become profoundly useful for me in providing deep insights, but I felt that there was one step further for me to go. I realized I needed to develop a system to translate the insight from tarot into real changes in my life. At the same time, I had started studying astrology and was working to discover how to see my own highest potential in my chart.

I discovered that by combining the two modalities I could use the tarot as a bridge to cross from the eternal archetypes of astrological mythology to the unique simplicity of my mundane personality and back to the highest expression of my soul purpose. By then crystallizing this

shift of perspective into a unique symbol, I could create my own personal tool for transformation.

I believe that because the system is so adaptable and personalized, anybody can benefit from it.

How to Get the Most Out of Your Empyrean Key Symbol

Your symbol translates the conscious work you have done to the subconscious, where the process of transformation begins. The symbol is like a seed, and working with it through ritual and meditation is planting and tending the seed. This is the process I developed as a technique to manifest the insight we receive from the tarot, and, by working in the context of the natal chart, to realize our highest potential.

A few ways to work with your symbol:

- Place your symbol where you can see it often
- Create something using the symbol
- Use it in ritual
- Meditate on it
- Cut out your symbol and tape it to your water bottle
- Place your symbol under your pillow and ask to receive dreams about it
- Get it tattooed on your body (or use a Sharpie!)
- Use icing to decorate cookies or cupcakes with your symbol

Make up your own fun, helpful or crazy ways to make your symbol part of your life!

Practice: Candle Scrying

Ritual to Create Mindful Focus on Your Symbol

This ritual is designed for people who do not have a lot of experience ritualizing for themselves. Ritual does not have to be complicated or mysterious. It is simply a way of connecting your physical self with your spiritual self. The process of bridging the two is accomplished differently for everyone, so never be afraid to try something new or change something around! There are no “rules” to be broken. You are just finding what works best for you, and as long as you put out your intentions with love, they will be returned with love.

Tools

- A small taper candle in the color that best fits your intention (note: a tealight candle will not work for this ritual)
- A toothpick
- Your Empyrean Key symbol, affirmation and keyword

Ritual

Using the toothpick, while repeating your Empyrean Key affirmation out loud, carve your symbol onto one side of the candle.

Now while repeating your Empyrean Key keyword out loud, carve your keyword onto the other side of the candle.

Carve your name into the bottom and the top of the candle.

Holding the candle in both hands, say your affirmation, then your keyword, and then take a deep breath and breathe out slowly and intentionally onto the candle.

Place the candle on a safe burning surface and, saying your affirmation and keyword once more, light the candle.

Let the candle burn all the way down and out. (If you cannot leave the candle burning, simply put it out and then relight it whenever it is safe to do so, repeating until it is completely burned down.)

—Ritual by Rory Joyner

Practice: A Ceremonial Magic Style Ritual

Ritual to Invoke and Balance the Energy of Your Symbol

Find an area indoors or outdoors where you can be undisturbed for a few minutes. There should be enough room to walk in a small circle, or at least turn around with your arm extended. This is your ritual space.

1. Stand in the center of your ritual space facing east. Stand tall with your feet together or shoulder width apart and your hands at your sides. Take several deep breaths to clear and calm yourself.
2. Bring your hands, palms together, in front of your chest in “Namaste” or “prayer position.” Set your intention to call forth or invoke the power of your symbol.
3. From the Namaste position, drop your arms back down to your sides, then on an inhalation with a strong, controlled, sweeping motion, swing your arms above your head while slightly arching your back and looking up. Continue breathing deeply, and for a few moments contemplate your connection to the sky. (This step and the next you may recognize as the beginning of a yoga sun salutation.)
4. On an exhalation, lean forward, arms still extended, back straight, for as far forward as you can go while maintaining a strong and controlled motion. Then drop your hands and round your back until you are hanging comfortably (you can place your hands on your legs for support) or touching the ground. Breathe deeply, and for a few moments contemplate your connection to the earth.
5. Inhaling, roll up slowly vertebra by vertebra while lifting your arms out to the sides, so that your body forms a cross. While reaching out to the sides, look slightly upward and feel your heart open.
6. Exhaling, bring your hands back to Namaste position. Momentarily be aware of all the positions you have just held—above, below, left and right, and centered at the heart.
7. Release your arms to the sides, and then step forward, if you have enough room, to the eastern edge of your ritual space. Extend your arm, and with a pointed finger or with a ritual wand, trace your symbol in the air in front of you. Imagine seeing your symbol glowing in brilliant white light. Say your Keyword in a firm and powerful but not necessarily loud voice. Feel the vibrations of your Keyword filling the space to the east. Alternately, say, “I invoke the power of [Keyword] out of the east and into Unity” or “My [Keyword] is One” or similar.
8. When you feel the vibrations begin to dissipate slightly, with your arm still extended, trace a line around to the south of your ritual space. Again trace your symbol, see it glowing in white light, and vibrate your Keyword or say the alternate line, using the appropriate direction as necessary.
9. Repeat to the west and to the north.
10. From the north, complete the circle by tracing a line back to the east. Then return to the center of your ritual space.
11. Trace your symbol in the air directly in front of you. See it glowing in brilliant white light.
12. Say your Affirmation aloud, firmly and powerfully, but not necessarily loudly.
13. Cup the symbol in your hands and see it glow even more brilliantly. Gently and lovingly bring it in your hands to your heart. Feel the symbol embrace your heart.
14. Feel the whole ritual space filling with white light, as if a skylight opened above you, or as if the sun came out from behind the clouds. Be aware of your symbol glowing brightly in the four directions and in your heart. Bask in the warmth and beauty of this light until you begin to feel it dissipating.
15. Bring your hands to Namaste position, and repeat steps 3 through 6.
16. Say “Thank you” or any common closing you use in your work, such as “Amen” or “So mote it be” or “Blessed be.”
17. This completes the ritual.
